New Suitings

For Fall and Winter

Also Overcoatings in Melton's
--Chinchilla's-- Whitney's--etc.

THOS. F. RIEGER

CUSTOM TAILOR

Suits and Overcoats "Made to Order" from \$30.00 up
Cleaning, Pressing, Repairing, Remodeling

Threshers Must Have Machines Licensed

Reports from a number of points in the province indicate that threshers in some instances are operating machines without having secured a license from the Department of Agriculture as required under the provisions of the "Threshers' Lien Act." This license may be had by sending in one dollar to the office of the Publicity Commissioner, Department of Agriculture, Edmonton, and the threshers will also be supplied with a copy of the sections of the "Noxious Weeds" Act relating to threshing, and with a form for the threshing returns, which must be sent in by all threshing machine operators at the end of the season. It may be pointed out that these returns provide one of the most valuable sources of information available for the compilation of Alberta's total crop yields in any season, and a prompt return of this statement, accurately filled out, will greatly assist the officials in charge of this work.

A normal conclusion is one that has sufficient tact to keep its mouth shut until after you take the profit

CRAIGMILE NEWS

Mrs. Boyd, of Hamilton, Ontario, arrived here at the beginning of this week on a visit to her son-in-law and daughter, Mr. and Mrs. G. H. Ross.

Mr. and Mrs. Frank E. Farrow, with Mr. and Mrs. H. S. Hocking and Miss Hocking, left by car for Calgary last Saturday afternoon en route to Vancouver, to visit friends there before returning to Mr. and Mrs. Hocking's home at Portland, Oregon.

With the fine weather of the last week good progress has been made with the threshing of the crop, and about another week of fine weather is all that is needed to get the crop all cleaned up. More than a quarter million bushels of wheat have already been hauled into town, and more than half that amount has been shipped out.

Last Saturday morning John H. Alstott had the misfortune to break his right leg through stepping in a hole in the field on his way to start his threshing machine. Dr. Crawford attended to the setting of the fracture, and it is hoped that Mr. Alstott will make a good recovery.

11th Fortnightly Crop Report

(Issued by Department of Agriculture, Government of Alberta, Edmonton, Oct. 21, 1927)

Threshing has again been active during the past week of excellent weather throughout the province, according to information received by the Department of Agriculture. Flour and wheat are largely produced in the effects of the rain, and a good deal of the grain now being threshed is grading "straight." It is estimated that by the end of the present week 35 to 40 per cent. of the season's crop will have been threshed, and three to four weeks of favorable weather should see threshing completed. Some 6,500 machines are being operated in the province, with an average total daily output of over eight million bushels.

Reports from a number of points indicate that threshing returns are exceeding earlier predictions as to yield, and the majority of growers threshed wheat is grading No. 2 or No. 3. Good progress is being made with the threshing of oats and barley, and very little damage is apparent as a result of weathering.

Fifty 50 per cent. of threshing is completed in the Peace River, Grande Prairie and Spirit River districts, and a high average yield is reported over large areas in this part of the province.

Elevators generally have had no difficulty in handling the new crop of grain. A slight shortage of labor is reported from a number of points, especially in the south of the province. The elevator has delayed sugar beet harvesting to some extent. The yield of sugar beets is estimated at fully a ton per acre in good condition, but last year's crop, and the sugar content of the beets show a slight increase.

Pastures have held out well during the fall months, and live stock is in good condition, with an ample supply of feed available for the coming winter.

Good progress is being made with plowing in fields cleared of stubble, and following the rains of the past few weeks the soil will retain the water in production of a bumper crop of winter wheat.

Alberta Wheat Pool

Final Payment of \$19,000,000 To Pool Farmers

A final payment of over nineteen million dollars on the 1926 crop of pool wheat, was announced last Wednesday morning by A. G. McNeil, president of the Canadian Wheat Pool.

"Of the total amount the Saskatchewan pool received \$12,929,207, the Alberta pool \$1,198,587, and the Manitoba Pool \$2,085,576," stated Mr. McNeil.

The total payment made by the central selling agency to the three provincial pools represents the net balance after deducting all marketing costs incurred by the central selling agency, such as storage, interest charges and administrative expenses from the proceeds of this crop.

"As in previous years, the proceeds from the sale of the 1926 crop in the final payments, which reflect the actual price secured for the various grades."

"The final payments make the total price on the principal grades, No. 1, \$1.42; No. 2, \$1.41; No. 3, \$1.40; No. 4, \$1.39; No. 5, \$1.38; No. 6, \$1.37; No. 7, \$1.36; No. 8, \$1.35; No. 9, \$1.34;
